Public Consultation Feedback Summary & Transmittal Brief

Official Record & Community Feedback Synthesis

Reference Number: TRK-2026-000003

Date Created: July 31, 2026, 8:10 AM

CREATED BY: Mr. Jojo

CONSULTATION DETAILS

Topic: Proposed Flood Control and Drainage Improvement Plan

Category: Infrastructure

DESCRIPTION

Valenzuela City experiences frequent flooding during heavy rains, especially in low-lying barangays such as Malinta, Coloong, and Poblacion. This consultation seeks public feedback on a proposed flood control and drainage improvement plan that includes upgrading existing canals, installing flood sensors, and implementing community-based waste management to prevent clogging.
